COUNCIL MEETING PROCEDURES

1. All Council meetings are open to the public, except for matters raised by Council under “Confidential Matters”.
2. Members of the public may ask a question at an ordinary Council meeting at “Public Question Time”.
3. Members of the public who are unfamiliar with meeting procedures are invited to seek advice at the meeting. If unsure about proceedings, just raise your hand when the Presiding Member announces Public Question Time.
4. All other arrangements are in accordance with the Council’s standing orders, policies and decisions of the town.

DISCLAIMER

No responsibility whatsoever is implied or accepted by the Shire of Cuballing for any act, omission or statement or intimation occurring during Council/Committee meetings or during formal/informal conversations with staff. The Shire of Cuballing disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council/Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person’s or legal entity’s own risk.

In particular, and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a licence, any statement or limitation of approval made by a member or officer of the Shire of Cuballing during the course of any meeting is not intended to be and is not taken as notice or approval from the Shire of Cuballing. The Shire of Cuballing warns that anyone who has an application lodged with the Shire of Cuballing must obtain and only should rely on WRITTEN CONFIRMATION of the outcome of that application and any conditions attaching to the decision made by the Shire of Cuballing in respect of the application.

KEY INFORMATION

▲ ▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 16 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying Regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimation of fair values of certain financial assets
- estimation of fair values of fixed assets shown at fair value
- impairment of financial assets

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

		942,699	1,651,100	2,593,799	0			

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

Total receivables general outstanding						974,411

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the period that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

The Shire has no unspent debenture funds as at 30th June 2022, nor is it expected to have unspent funds as at 30th June 2023.

KEY INFORMATION

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

Total		0	0	6,000	0	(2,000)	0	4,000	0	0

All lease repayments were financed by general purpose revenue.

KEY INFORMATION

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

Summary

A subdivision boundary realignment application has been referred for Shire of Cuballing comment. The result of the changes will be that the Patmore's Feedmill will be on a separate Lot from the adjacent residence and other farm infrastructure. There has also been some rationalisation of adjacent lots, though the total number of lots does not change.

Background

The Western Australian Planning Commission (WAPC) has referred a subdivision application to the Shire for comment. Details provided by the applicant are provided in Attachment 9.2.1A.

The application site consists of 4 lots as follows:

- Lot 1 (114 Ha) located on the west side of Springhill Road;
- Lot 501 (15.5 Ha) which incorporates the feed mill and adjacent farmhouse and farm sheds;
- Lot 500 (224 Ha) incorporating land on both sides of Springhill Road; and
- Lot 5667 (52.4 Ha) on the west side of Springhill Road adjacent to the northern portion of Lot 501.

If approved the new lot arrangement will be as follows:

- Lot A (9.37 Ha) which is the portion of Lot 501 which accommodates the feed mill;
- Lot B (154 Ha) which incorporates the balance of Lot 501, the entirety of Lot 1, and a portion of Lot 500 surrounding the feed mill.
- Lot C (136 Ha) which is the remainder of lot 500 South and West of Springhill Road; and
- Lot D (104 Ha) which incorporates the remainder of Lot 500 North of Springhill Road combined with the entirety of Lot 5667.

Planning framework

In summary:

- The property is zoned 'Rural' in the *Shire of Cuballing Local Planning Scheme No. 2* (LPS2);
- The property is classified as 'Rural' in the *Shire of Cuballing Local Planning Strategy*;
- Portions of the site are classified as a Bushfire Prone Area as set out at <https://maps.slip.wa.gov.au/landgate/bushfireprone/>;
- *State Planning Policy 2.5 Rural Planning* includes an objective to 'provide investment security for existing, expanded and future primary production and promote economic growth in regional development on rural land for rural land uses'; and
- The WAPC's *Development Control Policy 3.4 Subdivision of Rural Land* (Policy DC3.4) outlines the WAPC will consider rural subdivision for a limited range of exceptional circumstances. One of these exceptional circumstances is to align lot boundaries with no increase in the total number of lots, where the resultant lots do not adversely affect rural land uses.

Further details are outlined below.

Clause 3.2(b) of LPS2 in part sets out the following objectives for the Rural* Zone:

- 'to preserve productive land suitable for grazing, cropping and other compatible productive rural uses in a sustainable manner;
- to ensure the preservation of the rural character and rural appearance of land within the zone;
- to protect the economic viability of rural zoned land through a presumption against subdivision except where such subdivision will enhance and/or promote the viability and diversity of general farming activity'.

*The General Agriculture Zone was renamed Rural Zone as part of Amendment No 6 of LPS 2 which received Ministerial Approval on 11 September 2023.

The *Shire of Cuballing Local Planning Strategy*, which was endorsed by the WAPC, in part sets out:

- Objectives in section 3.1 which include to 'promote and manage a sustainable settlement pattern to avoid unnecessary duplication of resources' and to 'promote agriculture as a key economic and social driver within the district';
- Action 25 'Provide advice to the WAPC on subdivision applications which is guided to WAPC policy. In particular, to not generally support additional lots in rural areas but generally support boundary realignments'; and

Comment

The proposed arrangement will see the Patmore Feeds feed mill on a dedicated parcel of land. Adjacent parcels of land will have boundaries realigned to create 3 lots each exceeding 100

hectares, which is consistent with a rural land use. Each of the new lots will have a road frontage on Spring Hill Road.

Strategic Implications

The proposed boundary adjustments are consistent with the requirements of the Local Planning Strategy.

Statutory Environment

Planning and Development Act 2005 and LPS2.

Policy Implications - Nil

Financial Implications – Nil

Economic Implications

The application provides no increase in the number of lots and separates the feed mill as an industrial use from the adjacent residential and agricultural uses.

Social Implications – Nil

Environmental Considerations - Nil

Consultation

The WAPC invites comments from the Shire, servicing agencies and relevant State Government departments on subdivision applications.

Options

The Council can resolve to

1. Adopt the Officer's Recommendation to support the application without conditions;
2. Support the subdivision application with conditions; or
3. Not Support the subdivision application.

If Council opts for option 2 or 3 reasons will need to be provided.

Voting Requirements – Simple Majority

OFFICER'S RECOMMENDATION / COUNCIL RESOLUTION 2023/97:

That Council, in relation to the subdivision application WAPC 163982, advise the Western Australian Planning Commission that the Shire of Cuballing has no objection to the proposed boundary realignment.

1. PROPOSAL

This report forms part of the subdivision application for the proposed boundary realignment subdivision of Lots 1, 500, 501 & 5677 Springhill Road, Cuballing (referred to within as ‘the property’).

The purpose of this report is to present the justification for the boundary realignment as proposed and to assist decision-makers and service authorities to consider this application.

This subdivision application aims to achieve the following outcomes:

1. Lot 5677 is to be amalgamated with the northern portion of Lot 500 to form proposed Lot D;
2. Lot 1 will be amalgamated with portions of Lot 500 and Lot 501 to form proposed Lot B and accommodate the existing dwelling and associated structures;
3. The remainder of Lot 501 will form proposed Lot A and accommodate the existing stock feed processing plant; and
4. The remainder of Lot 500 will form proposed Lot C.

A copy of the Plan of Subdivision is included as part of this application.

2. BACKGROUND & SITE CONTEXT

2.1. Land Details

Lots 1, 500 and 5677 are in the same ownership, separate from Lot 501. The details of the current landholdings are outlined as follows.

LOT	CERTIFICATE OF TITLE	OWNERSHIP
Lot 1	DP 72792 Volume 2174, Folio 587	William John Patmore
Lot 500	DP 418082 Volume 2999, Folio 13	William John Patmore
Lot 501	DP 418082 Volume 2999, Folio 14	Patmore Feeds Pty Ltd
Lot 5677	DP 120766 Volume 2656, Folio 574	William John Patmore

A copy of the Certificate of Title for each is included as part of this application.

2.2. Zoning

The property is currently zoned ‘General Agriculture’ by Shire of Cuballing’s Local Planning Scheme No. 2.

2.3. Location

The property is located approximately 4.3km south west of the Cuballing townsite.

2.4. Surrounding Land Use

The property is situated in a rural area with all adjoining land being similarly zoned 'General Agriculture'. The surrounding land uses are all for the purposes of board acre farming typically found within the general agricultural zone.

2.5. Topography

The topography of each lot is demonstrated on the Plan of Subdivision. Generally, the land is undulating with the highest point of 410m AHD, north-east of the top portion of proposed Lot C and within the northern portion of proposed Lot D.

2.6. Existing Buildings & Structures

All existing buildings and outbuildings are to be retained as part of this subdivision application. The location of each existing building and outbuildings, including dams, are shown on the Plan of Subdivision.

3. SERVICING

The existing dwelling and associated outbuildings as well as the existing stock feed processing plant are currently supplied with power from the existing aerial power lines which traverse the property.

Clause 6.5.1 (B) & (C) of State Planning Policy 2.5 Rural Planning, states the following regarding a potential electrical condition:

For rural and rural living subdivisions, WAPC policy is for electricity supply to be commensurate with the intended land use.

The policy measures include:

(b) where lots created as a result of a subdivision for a homestead lot, a conservation lot or **boundary realignment** do not require a power connection to support the land use, an electricity supply condition may not be applied.

In light of this provision within SPP 2.5 Rural Planning we request no power conditions be imposed on this subdivision proposal.

4. PLANNING FRAMEWORK

4.1. Shire of Cuballing Local Planning Scheme No. 2 (LPS 2)

The property is currently zoned 'General Agriculture' under the Shire of Caballing's Local Planning Scheme No. 2.

The objectives of the General Agriculture Zone applicable to this subdivision application are as follows:

- *To preserve productive land suitable for grazing, cropping and other compatible productive rural uses in a sustainable manner;*
- *To ensure the preservation of the rural character and rural appearance of land within the zone;*

- *To protect the economic viability of rural zoned land through a presumption against subdivision except where such subdivision will enhance and/or promote the viability and diversity of general farming activity; and*
- *To preserve and protect the natural undeveloped land areas throughout the zone;*

Therefore, the proposed subdivision meets the intent of the General Agriculture zone by rationalising the boundary of four existing lots for continued agricultural purposes.

4.2. WAPC DC Policy 3.4 ‘Subdivision of Rural Land’

WAPC Development Control Policy 3.4 Subdivision of Rural Land (DCP 3.4) and its parent State Planning Policy No. 2.5 provide guidance on the subdivision of rural land.

Section 6 of DCP 3.4 relates to circumstances under which rural subdivision may be considered and states the following:

(a) To realign lot boundaries with no increase in the number of lots, where the resultant lots not adversely affect rural land uses.

Further section 6.3 relates to the proposed boundary rationalisation as follows:

Multiple lots in one ownership may be rationalised provided that:

- (a) There is no increase in the number of lots;*
- (b) The new boundaries achieve improved environmental and land management practices and minimise adverse impacts on rural land use;*
- (c) No new roads are created, unless supported by the local government;*
- (d) New vehicle access points on State roads are minimised; and*
- (e) rural living sized lots (1-40 hectares), created as a result of the rationalisation, have appropriate buffer from adjoining farming uses and water resources, and may have notifications placed on title advising that the lot is in a rural area and may be impacted by primary production.*

In relation to the above, the proposed subdivision meets the intent of DCP 3.4 clause 6.3 by seeking to:

- Rationalise four existing green title lots into four new lots. with no overall increase in lots;
- The realigned boundaries achieve greater land management opportunities by separating the commercial and residential uses onto separate lots;
- No new roads are to be created. Legal road frontage is provided from the existing road network;
- No access to state roads are proposed; and
- Proposed Lot A is to be 9.37ha in size but is to contain the existing stock feed processing plant and no residential use.

Finally, within DCP 3.4 it states the following regarding boundary realignment subdivision applications by stating:

“In instances where a subdivision only proposes to realign existing lot boundaries, where no change to the land use and/or landform is proposed, and no additional development is proposed, applications for property rationalisation may be unconditionally approved”.

We therefore request that this proposed subdivision be approved unconditionally.

4.3. WAPC SPP 3.7 'Planning in Bushfire Prone Areas'

The subject land is designated to be bushfire prone by the Department of Fire and Emergency Commissioner.

The state Guidelines for Planning in Bushfire Prone Areas version 1.4 provides further information on the requirements of bushfire prone planning. Part 2.6 of the guidelines outlines when development is exempt from further bushfire reporting.

The proposed boundary realignment represents no increased intensity of land use, and therefore this boundary realignment is exempt from further bushfire reporting.

5. CONCLUSION

The proposed subdivision represents a logical rationalisation of Lots 1, 500, 501 & 5677 Springhill Road and is justified on the following grounds:

1. The proposal is for the existing four lots to be realigned. No additional lots are proposed;
2. The proposal new boundaries allow for improved land management;
3. The proposal is consistent with Shire of Cuballing's Local Planning Scheme No. 2 and WAPC Development Control Policy's 1.1 and 3.4 and State Planning Policy 3.7; and
4. The proposed subdivision will not result in any loss of agricultural land but will allow existing rural uses to continue.

Therefore, it is respectfully requested that the Commission unconditionally approve the proposed subdivision of Lots 1, 500, 501 & 5677 Springhill Road, Cuballing.

Application No: 163982 - Lot No 1, 500, 501, 5677 Springhill Road Cuballing

The Western Australian Planning Commission has received an application for planning approval as detailed below. Plans and documentation relating to the proposal are attached. The Commission intends to determine this application within 90 days from the date of lodgement.

Please provide any information, comment or recommended conditions pertinent to this application by 5 October 2023 being 42 days from the date of this letter. The Commission will not determine the application until the expiry of this time unless all responses have been received from referral agencies. If your response cannot be provided within that period, please provide an interim reply advising of the reasons for the delay and the date by which a completed response will be made or if you have no comments to offer.

Referral agencies are to use the Model Subdivision Conditions Schedule in providing a recommendation to the Commission. Non-standard conditions are discouraged, however, if a non-standard condition is recommended additional information will need to be provided to justify the condition. The condition will need to be assessed for consistency against the validity test for conditions. A copy of the Model Subdivision Conditions Schedule can be accessed: www.dplh.wa.gov.au

Send responses via email to referrals@dplh.wa.gov.au. **Always quote reference number "163982" when responding.**

This proposal has also been referred to the following organisations for their comments:
Western Power, Water Corporation, Public Transport Authority, Dept Of Water & Environment Regulations, Dept Mines Ind Regulation And Safety, Dept Biodiversity, Conser & Attraction and LG Shire Of Cuballing.

9.2.2 EEO Management Plan

Applicant:	Shire of Cuballing

Summary

Council is to consider an updated EEO Management Plan.

Background

As per the annual reporting requirements under Part IX of the Equal Opportunity Act 1984 an Equal Opportunity Management Plan is required to ensure diversity and inclusion initiatives are met. Council adopted a plan in May 2023.

As part of its oversight role the Public Sector Commission checks each year to ensure that public sector agencies including Local Governments, are meeting their EEO obligations including maintaining an EEO plan. As part of that dialogue the PSC made the Shire aware that they template EEO plans, including simplified plan especially designed for small agencies with less than 100 staff.

The CEO has prepared an updated plan based on the PSC template.

Comment

The EEO Equal Opportunity Management Plan ensures that diversity and inclusion and principles are incorporated into corporate values, business planning processes and human resource workforce plans, including:

- A positive, inclusive and harassment free workplace culture is promoted and communicated;
- that Managers and leaders are aware of their responsibilities;
- Performance Management criteria for managers and leaders include ability to attract and retain a diverse workforce and promote an inclusive work culture;
- There is an effective grievance resolution process where staff are able to raise concerns and issues.

CEO leadership statement

It is with pleasure I present to you the **Shire of Cuballing EEO** Management Plan.

This EEO Management Plan has been developed in accordance with Part IX of the *Equal Opportunity Act 1984* and is aligned with the Director of Equal Opportunity in Public Employment’s EEO and Diversity Outcome Standards Framework.

An inclusive and accepting workplace has benefits for all employees. A diverse workforce will attract and retain quality employees, which translates into effective business decisions and effective service delivery.

Our plan is the foundation for a working environment free from harassment and discrimination. Through the implementation of this plan we will strive to build a workforce and supporting organisational culture that reflects the diversity of the greater community. Our plan is a live document that we will continue to develop and build on for our future success.

I encourage all staff to embrace equity and diversity within the organisation. We value EEO/diversity and aim to ensure that the work environment is free from racial and sexual harassment and that employment practices are not biased or discriminate unlawfully against employees or potential employees. Our employment programs and practices recognise and include strategies for EEO groups to achieve workforce diversity.

I look forward to ongoing commitment and involvement from all staff in implementing this EEO Management Plan.
